REMARKS

Pursuant to the requirements of 37 C.F.R. §§ 1.821-1.825, Applicants submit the attached substitute Sequence Listing and computer readable form (CRF). The amino acid and nucleic acid sequences disclosed in the specification and claims may be found in computer readable form in file 061908.txt and are presented in the electronically scanned copy of the substitute Sequence Listing, attached.

Applicants hereby certify that the information recorded in computer readable form (CRF) supplied as file 061908.txt is identical to the accompanying electronically scanned copy of the substitute Sequence Listing. The substitute Sequence Listing is identical to the originally submitted Sequence Listing with the exception that this substitute Sequence Listing also contains SEQ ID Nos: 7-9, which were originally disclosed in the specification.

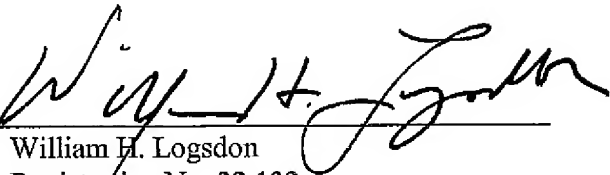

Applicants believe that the requirements of 37 C.F.R. §§ 1.821-1.825 have now been met.

Entry and approval of the substitute Sequence Listing and examination is respectfully requested.

Respectfully submitted,
